

# Research and Knowledge Transfer Priorities in Developmental Coordination Disorder: Results from Consultations with Multiple Stakeholders

<https://doi.org/10.1111/hex.12947>

**For which topic were research priorities identified?**

developmental coordination disorder

**In which location was the research priority setting conducted?**

North America - Canada

**Why was it conducted at all?**

**What was the objective?**

**What was the outcome?**

**How long did the research prioritization take?**

**Which methods were used to identify research priorities?**

group discussion; survey

**How were the priorities for research identified exactly?**

**Which stakeholders took part?**

**How were stakeholders recruited?**

**Were stakeholders actively involved or did they just participate?**
