

Equine Pituitary Pars Intermedia Dysfunction: Identifying Research Priorities for Diagnosis, Treatment and Prognosis Through a Priority Setting Partnership

<https://doi.org/10.1371/journal.pone.0244784>

For which topic were research priorities identified?

pituitary pars intermedia dysfunction (PPID)

In which location was the research priority setting conducted?

Europe - United Kingdom

Why was it conducted at all?

What was the objective?

What was the outcome?

How long did the research prioritization take?

Which methods were used to identify research priorities?

JLA method

How were the priorities for research identified exactly?

Which stakeholders took part?

How were stakeholders recruited?

Were stakeholders actively involved or did they just participate?
